136	Jun 13, 2000	J&H RV Park #36A	Flagstaff	AZ	4.0	Nice trees, good gravel roads and sites. Double sites available for \$5.00 more. Single sites quite narrow, close. Our site rates as a single, but is spacious because it is in a triangular corner. Not much view or anything to walk to. Very nice facilities. Owners pleasant, but he is a bit obsessed with his rules - got nervous appearing when I walked to his door to ask a question, not noticing I had passed a chain that had been left down (-5' "out of bounds"). Still, a nice experience.	1	-111.583717	35.229999	16

18	Jun 2, 1997	Sicamous KOA #32	Sicamous	BC	2.5	This is a highly rated park in Good Sam. The reason for rating it low is that the water was brown and particles settled from it. Our site was grassy with gravel drive. Full hookups. Sites quite close together with no isolation. Trees around the sites area, but not near sites. Moderate highway noise.	1	-119.285088	50.703960	3
19	Jun 3, 1997	Anmore Camplands #173	Vancouver	BC	3.0	Mostly long term occupants. Pretty expensive. Sites have reasonable separation. Ours required 3 leveling bargards to bring nose up. Highly rated, but for reasons that weren't too relevant for us. Manager a strange duck.	1	-122.856071	49.321487	3

26	Jun 27, 1997	Barstow Calico KOA #16	Barstow	CA	2.5	Long site on packed sand. No leveling required. Near I40, but not a problem since used air conditioner all night. Nice facilities.	1	-116.827194	34.904236	3
326	Oct 20, 2003	Tehachapi Mountain Park #59	Tehachapi	CA	2.5	We may not be doing this park justice because it is highly spoken of in our California campground guide. Paved road, dirt sites. Sites are huge and far apart. The road is extremely steep, so we went only as far as the 3rd site - 58 more lie up the hill. Separation and privacy great. Primitive - pit toilets, no hookups.	1	-118.482704	35.062836	25
365	Mar 29, 2004	Pine Ranch RV Park #39	Banning	CA	2.5	Paved roads, gravel sites. Mature trees. Average size sites and separation. No highways nearby. Nice view of mountains.	1	-116.876289	33.912521	27
387	Nov 13, 2004	Stilman RV Park	Sacramento	CA	2.5	This park is in a bad part of town, and has a coded gate to compensate. Near highway 99 so there is road noise, though not unbearable. Paved roads, gravel sites. Sites quite close, but long. There aren't many parks in Sacramento, and this is the highest rated by Trailer Life until you get pretty far out. OK in a pinch for one night of self contained camping - it has full hookups, including cable. We didn't try the restrooms - they may be fine but we weren't inclined to check. Mostly permanent residents it seemed.	1	-121.463715	38.511097	29
3	Feb 27, 1997	Lake Cachuma Park	Lake Cachuma	CA	3.0	Very large park with lots of sites. There were very few people there when we stayed, so privacy was not a problem. When full, however, it might feel crowded. Nice walking areas from sites in park.	1	-119.958603	34.581779	1
5	Mar 1, 1997	Pinnacles RV Park	Pinnacles	CA	3.0	Right near gate to park. Pleasant wooded setting. No highway noise. Sites reasonably separated, arranged as tangents to large circle holding 12.	1	-121.143494	36.497219	1
7	May 3, 1997	Bodega Bay RV Park #36	Bodega Bay	CA	3.0	Sites had average spacing. Fairly isolated from outside noise sources, e.g. highway. Adjacent to nice walking areas in state park.	1	-123.045547	38.335850	3
43	Sep 5, 1997	Pismo Coast Village RV Park #330	Pismo Beach	CA	3.0	Bill themselves as a resort. VERY expensive - \$32 + tax! NOT WORTH IT. Sites are close together. 400 sites. We had 3 large fires in nearby firepits blazing and emitting smoke. Bathroom not very clean - graffiti, dirt since cleaning seemed like not cleaned all day. Gates in property line fence provide walking access to beach, but a shallow lagoon separates park from ocean by several hundred yards, so ocean view, but not easy access. The sad part is that this seems like the best choice in Pismo Beach. Next time in this area, try Morro Bay State Beach (very nice, but call well ahead for reservations on weekends, summer, e.g. weeks), or roadside parking in Avila Beach (\$15/night) right on edge of beach.	1	-120.636925	35.135632	3
54	Jan 27, 1998	29 Palms RV & Golf Resort #60	29 Palms	CA	3.0	Long, narrow facility. Desert setting. Paved roads, gravel parking sites for RVs, with paved auxiliary parking or place for table. No picnic tables provided. Very nice rest rooms, but all at one end of long park. Few toilets.	1	-116.045387	34.166115	4
55	Jan 28, 1998	Cottonwood Springs Campground #28B	Joshua Tree Nat'l Park	CA	3.0	No hookups. Flush toilets. Paved roads and sites. Good separation. Picnic tables. Foliage provides some isolation. Surrounding hills. Near visitor center. Restrooms clean, close to sites. No electricity in them.	1	-116.070557	34.104980	4
107	Nov 19, 1998	Salt Point State Park Grestie Cove #11	Salt Point	CA	3.0	Paved roads and sites. View of ocean from site. Trees burned about 3 years ago. Good separation. Not real level. No hookups. Pit toilets. \$18/site.	1	-123.329689	38.570179	9
108	11/20-21/98	Van Damme State Park	Mendocino	CA	3.0	Parking lot across road from main part of park. Transit camping - one night limit. Share facilities, same fees. Backed up onto bay, heard surf. Right on Highway 1, but light traffic during night. Restrooms in park fine.	2	-123.791542	39.273659	10

149	Jul 2, 2000	Pine Cliff Resort #47	June Lake	CA	3.0	Rustic. Lots of trees. Paved roads, dirt sites. Sites packed in, but at all angles, so it doesn't give a real crowded feeling. Walk to lake. Cash only. Restrooms pretty rustic.	1	-119.069481	37.763252	16
335	Jan 28, 2004	Rincon Parkway #54	Ventura	CA	3.0	Parallel parking on paved shoulder by ocean beach, separated by boulders from the sand. Great view of ocean and sunset. Road runs by, then train track, then US 101. Still, an enjoyable place to stay.	1	-118.779633	34.026058	27
337	Jan 30, 2004	Terrace Village RV Park #27	Grand Terrace	CA	3.0	Paved roads and sites. Sites are quite small and packed together - we just fit in a back-in site with our bumper overhanging the curb of the access road.	1	-117.327248	34.033901	27

339	2/01-02/04	Rancho Los Coches RV Park #10	Lakeside	CA	3.0	This park would be quite nice had they not crowded the sites so close together. The width of each is barely wide enough to fit between the concrete patio pad and the hookup stand. Aside from that, the location and facilities are nice. Paved roads, gravel sites (with concrete pads), mature trees. Quiet. An easy 3.5 or maybe more if there were 2/3 the number of sites in the same area.	2	-116.900032	32.836281	27
6	4/3-4/97	Bothe-Napa Valley State Park	Calistoga	CA	3.5	Rustic park. Sites had fairly good isolation. Required lots of leveling. Heavily wooded setting, low trees made moving RV a bit difficult. Nice biking from the park.	1	-122.526741	38.553131	2
41	Sep 2, 1997	Lake San Antonio North Shore B loop	King City	CA	3.5	Site overlooking lake. Paved, level. Very few trees. Lots of bugs - if not for the bugs, rating of 4.	1	-120.964111	35.857056	3
53	Jan 26, 1998	Valencia Travel Village #K3	Valencia	CA	3.5	Extensive facilities. Gravel site, able to orient so no leveling required. Major road runs by, but road noise wasn't a problem. Trees, surrounding hills add visual appeal. Good size sites. We were on a circle (K), which gave better separation than most parallel sites. 259	Jun 19, 2003	Lapine State Park #E9	Lapine	CA	See #048	We found some very nice hiking trails, and walked about 2 miles on the Deschutes Loop along the Deschutes River. Beautiful. See #44	1			25
225	06/14-15/02	HP Little Basin - Ruppel's Roost	Big Basin	CA	See #071	This is a wonderful site. It is huge and completely isolated from any other sites. The RV site is paved and nearly level. There is plenty of room for a large tent on dirt. In July there were mosquitoes. It is quite a long walk to restrooms, but they are very nice. HP employees and retirees can use it, with guests.	2			21

33	Jul 11, 1997	Pine Cone Campground #44 - US Forestry	Dillon	CO	2.0	Paved parking lot with spaces marked off for back-ins. On lake - used a lot by boaters. Has ramp. No hookups. We came here because it was 5 PM Friday and everything else was full. Would do again in same circumstances, but no other appeal.	1	-106.032486	39.624203	3
29	Jul 2, 1997	Cortez/Mesa Verde KOA #5	Cortez	CO	2.5	Shared hookups. Gravel sites, nearly level without blocks (didn't level). Fairly far from highway 160, on edge of town. Overall a very average place to stay nothing bad or memorable.	1	-108.545731	37.353279	3
32	Jul 10, 1997	Crazy Horse Camping Resort #84	Buena Vista	CO	2.5	Rustic. Dirt sites were dusty and uneven. Close to highway. Restrooms small. Seemed more focused on renting ATVs and booking excursions than on the facilities.	1	-106.179214	38.910069	3
35	Jul 14, 1997	Fort Collins-Mile High KOA #10	Laporte	CO	2.5	Okay facilities. Desert setting, so dusty. Sites were combination of cement pad for rear wheels, gravel for front, dirt for rest. Level without blocks.	1	-105.189285	40.665535	3
37	Jul 16, 1997	Steamboat Springs KOA #68	Steamboat Springs	CO	2.5	Gravel roads. Grass sites. Concrete pad for table. Fairly level. Not dusty. Facilities aging. Near highway, heard traffic.	1	-106.863327	40.502445	3
396	Jun 11, 2008	Glenwood Canyon Resort #307	Glenwood Springs	CO	2.5	Rough gravel roads and gravel sites (ours sloped a lot more than necessary). Beautiful canyon walls. Some sites right on Colorado River, but they have a steep walk up to restrooms. Free WiFi. Train loud in canyon. Restrooms OK - rustic. Young trees - no shade yet. Good size sites, but very plain. Would rate a 3.0, but cost -50% higher than comparable parks - probably because of high demand for river rafting, etc.	1	-107.291290	39.557280	33
31	Jul 9, 1997	Montrose KOA #9	Montrose	CO	3.0	Nice layout, well removed from highway. Some shaded sites. Not crowded. Nice staff. Serve breakfast, dinner for reasonable prices. Good facilities. A-frame cabanas dividing many pairs of sites provided a nice covered area for dinner. Average rates.	1	-107.868057	38.488430	3
38	Jul 17, 1997	Junction West RV Park #19	Grand Junction	CO	3.0	Gravel roads, sites. Flat overall, not much visual appeal. Surrounded by beautiful hills, mesas. Facilities okay, very well maintained, clean. Very friendly. Gave us 2 bags of popcorn at checkin. Very service oriented. No highway noise.	1	-108.645172	39.120472	3
104	Oct 13, 1998	Pikes Peak RV Park #26	Colorado Springs	CO	3.0	Gravel roads, sites. Paved patio slab. Site backs up onto stream. Some road noise. Shade trees, but not between sites. Not much isolation between sites. Good restrooms.	1	-104.900162	38.856720	8
105	Oct 14, 1998	Ami's Acres Campground #53	Glenwood Springs	CO	3.0	Right above I70, so highway noise. Pretty view of mountains, Colorado River. Gravel roads, sites. Our site is small, because I asked to be away from other campers (we are). Good rest rooms.	1	-107.442902	39.575294	8
34	07/12-13/97	Dakota Ridge RV Park #B2	Golden	CO	3.5	Excellent facilities. Paved site - needed single block to level. Fairly near Highway 40.	2	-105.202332	39.720127	3
36	Jul 15, 1997	Spruce Lake RV Park #108	Estes Park	CO	3.5	Nice area, with own small lake, river running by near our site. Large site, in a different way. Back to back with another, but double width giving large picnic area. Sites separated by rail fences. Not near any highway, but only a little over a mile from town.	1	-105.543251	40.362503	3
145	06/26-28/00	Garden of the Gods Campground #F8	Colorado Springs	CO	3.5	Very large, highly rated park. Paved roads, dirt sites. Raining hard, and some sites quite muddy. Concrete pads for table. Large trees, wide sites. Separation average. No road noise.	3	-104.884628	38.856651	16

395	6/09-10/08	Colorado River State Park #15	Fruita	CO	4.0	Paved roads, concrete pad sites. Hookups. Very good restrooms. Very good site separation. Young trees. Grass.	2	-108.740000	39.149330	33
397	Jun 12, 2008	Dakota Ridge RV Park #A11	Golden	CO	4.0	This park could be a 5.0. The facilities, including restrooms and laundry, and service are first rate. Most sites have concrete pads, good separation and are large. Our site, unfortunately, is an exception. There are a number of sites around the perimeter that are short, with asphalt paving that varies in slope. The free WiFi at our site was very marginal. So I'd give the park a 4.0 overall - up from 3.5 in '97 when we were here before. Ask for a site in the center. See #031	1	-105.201660	39.719380	33

303	Sep 17, 2003	Lewis and Clark State Park #28	Onawa	IA	3.5	Right on a lake shore. Large cottonwoods provide shade. Paved roads, gravel/grass sites. Good separation. Good restrooms.	1	-92.111259	46.535957	25
159	Sep 26, 2000	Blackwell Island RV Park #109	Coeur d'Alene	ID	1.5	Gravel roads and sites. Near river, with some river sites (higher priced). VERY noisy saw mill right across river, ran during night. Nice rest rooms. Rustic appearance. Sites good size. Would rate 3.0 if not for sawmill noise.	1	-116.804214	47.682529	17

175	May 16, 2001	Yogi Bear's Jellystone Park #912	Plymouth	IN	2.5	This park is really mostly permanent residents and prepaid club members. There are well over 1000 sites. It just doesn't reflect attention to details and customer orientation. Our site was okay, backing onto a small lake (but just across the lake from US30, with cement tracks and a cement pad. Roads are gravel. Laundry wasn't real clean. Sewer cap was stuck and needed an attendant with a pry bar.	1	-86.386505	41.365520	18
78	Sep 7, 1998	Plymouth Jellystone Park #729	Plymouth	IN	3.0	Although highly rated in Good Sam's guide, this place is not our cup of tea. It has over 1000 sites, mostly long term renters. Our site was fine, but the first site they assigned us was not. The hookups were way at the back, down a slope and in weeds, and the site was weeds, not grass. We moved to 729, which was large, grass. Several sites were nearby but the RVs were unoccupied at this time. Though right on US 30, the facility is so large (114 acres) that our site was away from highway noise. Overall okay in a pinch, but not to be sought out.	1	-86.309196	41.343616	8

311	Oct 1, 2003	Charlestown State Park #27	Charlestown	IN	3.5	Paved roads and sites. Good separation. No foliage between sites, so privacy only where separation. New park, with not much in the way of attractions to it yet. Never full, even on holidays - a bonus. Indiana state parks quite expensive - near private parks. Some sites full hookups, some just electric.	1	-85.602173	38.466400	25

Large trees surround the rows of campsites, but are not between sites. Many sites are paved, some gravel. Deluxe sites for a few dollars more per night are larger and have developed patios, some covered. Service is superb. 359	3/17-18/04	Kerrville/Schreiner City Park	Kerrville	TX	4.0	This park was until recently a state park, but is now Kerrville's. Our first night we could only get a tent site, and they are pretty small and non-level. The office suggested we might prefer the overflow area - unnumbered sites with picnic tables but no campfire or barbecue area. But these sites are quite nice - many paved, well separated. We chose one that was less developed, but totally by itself at night - during the day it is in the playground parking area. Perfectly quiet. We liked it so well that we returned to it the second night, even though we could have upgraded to a water/electric hookup site (#219) that would have been fine. The park is pretty nice, though we didn't spend time there during the days.	2	-99.117882	30.008110	27

65	May 31, 1998	Natural Bridges National Monument Overflow	Natural bridges NM	UT	4.5	Because the campground at the Monument was full, we checked out their (free) overflow area. Nominally, it is just a large circular gravel parking lot. However, there is a dirt road running off the back of it. We followed that road to a point where a barricade prohibited further travel by bike or motor vehicle. It is a perfect campsite - very isolated and on the edge of a hikeable canyon. There are no services here, so we operated self-contained. But it is one of our favorite site experiences.	1	-109.985161	37.610153	6
